課程簡述 (course description)	本課程旨在探索人際關係的相關政治理論,雖然主要聚焦於浪漫的愛情關係,但也同時兼論友情、愛情和友情的交錯,以及這些人際關係之互動。 六大主題及其相關個案包括生物性的情慾、吸引力、社會學的關係建構及來自他/她者的影響。修習者將在小組辯論的對話交流過程中對愛情這樣的人際互動形成更為深刻的理解,並同時在課程學理性與實際性的相關論述中重塑自己對於愛情的認知。我很期待與大家在課堂上一起展開這樣的探索之旅。  This course is an exploration of political theories of close human relationships. Although it will be primarily focusing on romantic relationships, it will also discuss friendships, as well as the places where these two kinds of relationships intersect, and the ways in which they interact. Examples of the six topics in this					
	course include the biological bases of attraction and love, relationship formation and dissolution, interaction patterns, and the social context of relationships (e.g. the influence of others). The students will have an opportunity to understand romantic relationships deeply through group-based debates in the class. They will also find that this course contains unexpected arguments that can change the way they look at romantic relationships, both from academic and applied, "real-life" perspectives, and I look forward to joining them on that exploration.
